

The Prop House/VM+ Custom Decorated Christmas Foliage- Basic Trim Style

We create custom wreaths and trees for your Christmas display; whether it be for your living room, office, workplace or event. Simply select your preferred size wreath or tree, choose whether you will require lighting, discuss with one of our Christmas Stylists what colour palette you require, and your bespoke element will be created for you. The prices listed below include your choice of coloured baubles in matte, shiny and glittered. Other decorations are available at our showroom at an additional cost.

We will require 2-5 working days to make your customized element.
